In addition to the demands from shareholders, employees and customers, shipping companies must also meet the requirements of IMO, rules and regulations from national administrations and classification societies.

The Star systems help improve safety through:

- Improved maintenance & condition control
- Better contingency planning & handling
- Better follow-up of accidents & near accidents
- Better follow-up of non-conformities
- More precise ship – shore data replication
- Improved quality on information for management & operation

Shipping companies invest in modern IT solutions to reduce cost, to improve safety and to increase profit. The Star systems play important roles in achieving:

- Reduced off-hire
- Better documentation for claims & settlements
- Reduced insurance premium
- Reduced maintenance cost
- Optimized spare part inventory & consumption
- Better business to business e-commerce
- Reduced communication cost
- Reduced repair yard bills
- Increased second hand value
- Improved environmental protection
- Professional IT environment
- Compliance with ISM and ISPS code requirements

Star Insurance

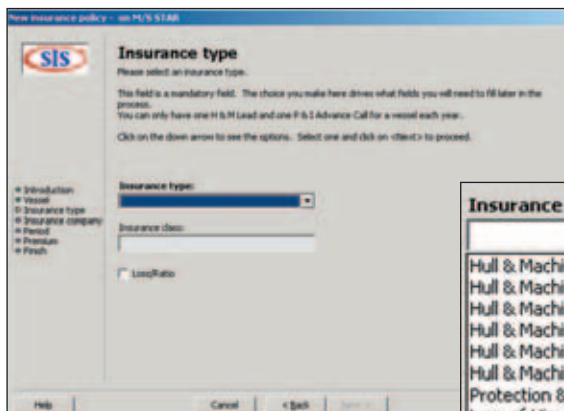

HELPS YOU KEEPING TRACK OF INSURANCE POLICIES AND CLAIMS

Star Insurance is a computer-based program designed to help shipping companies to keep track of all information related to their insurance policies and claims.

Star Insurance is designed to help marine insurance managers to:

- Keep track of:
 - insurance policies & premium payments
 - leading insurance companies & followers
 - claims and company's claim histories.
- Provide information and documentation for the handling of claims.
- Follow up claim estimates, settlements, costs and reimbursements.
- Provide historical records of loss ratios for different insurance policies.

- Insurance type:**
- Hull & Machinery Follower
 - Hull & Machinery Interest
 - Hull & Machinery War
 - Hull & Machinery Interest War
 - Hull & Machinery FIC
 - Hull & Machinery FIW
 - Protection & Indemnity Supplementary Call
 - Loss of Hire
 - FDD
 - COFR Annual
 - COFR Voyage
 - Innocent Owner's
 - Mortgagee Interest
 - Cash in Transit

Star Insurance handles policies such as:

Claim window

The claim detail windows carry "lifetime" information related to the claim. This may include documents, photographs and video to describe the event and its consequences.

Ins. company	Insurance ref.	Date reported	Part %	Distributed outstanding	Reimbursed amount	Date
Forsikringsbolaget Zürich			70			
			30			

* H&M claim *

Ins. company	Insurance ref.	Date reported	Reimbursed amount	Date
Forsikringsbolaget Zürich				

* P&I claim *

Claim update

A claim may be updated with new documents, photographs and other claims related information as long as it has status *New* or *Open*.

Integration with other Star systems

Star Insurance may be used as a stand alone program, or may receive event information from Star Information & Planning System.

This information may include detailed descriptions of the event with its consequences, and other details that may be required as basis for a claim.

Data is exchanged between ship and shore through an advanced replication system.

For more information about this or any other Star Information Systems products, please contact your local distributor or Star Information Systems head office.

Technical Data

Star Insurance can be run on Windows 98/2000/NT/XP workstations. The program uses SQL databases like Oracle, MS SQL Server, or Sybase.
